

First Global Logistics Employment Clause re biosecurity training and appointment

Training and Development

The Employer will provide the appropriate training and development to enable the Employee to carry out the tasks that make up their role. Depending on the position held, this may include a requirement for the Employee to attend a particular course of instruction to obtain a specified licence/certificate in order to comply with a company directive, and which may include, but not limited to, the Ministry For Primary Industries (MPI), Customs and RACA. The Employer will pay the fees incurred for the Employee to obtain the necessary qualification. Where the Employee fails to obtain the relevant licence/certificate after two attempts and it is a requirement of their job to hold said qualification in order to comply with the MPI regulations, the Employee's employment with the company may be terminated with notice.
